PAAMES NEWSLETTER

Vol.1, No. 1, November 24, 2008

PAAMES News

1. PAAMRES Newsletter

JASNAOE will retain responsibility for the newsletter till the end of the 4th PAAMES in 2010.

2. PAAMES E-Journal

The initial papers for The PAAMES E-Journal will be the 20 best papers selected from The 3rd PAAMES with inputs starting January 2009 of 5 papers and 5 papers thereafter at 6 monthly intervals on estimated basis. 3 papers from AP-Hydro and 3-5 papers from TEAM will be also selected for PAAMES E-Journal papers. Proof reading will be carried out by the HKIMT followed by SNAMEs before the papers are published on the PAAMES E-Journal.

3. Call for Papers for ISSDC2009

The International Symposium on Ship Design & Construction 2009, organized by the Royal Institution of Naval Architects, the Japan Society of Naval Architects and Ocean Engineers, the Japan Institute of Marine Engineering and the Japan Institute of Navigation, will address the interdisciplinary technologies which are required to provide the environmentally friendly ship of the future.

4. IMarEST EAD

Ir Szeto, Louis K.S., President of the IMarEST EAD, advised that the EAD was to be split into a South East Division (already formed) and a North East Asia Division to be formed in November 2008.

3rd PAAMES/AMEC2008 was finished

The 1st PAAMES meeting was held in October 2004 in Shanghai, in conjunction with the 4th New S-Tech Conference. The International Standing Committee of the 1st PAAMES decided to change the name of the New S-Tech Conference to AMEC in order to widen the scope and to strengthen the link with PAAMES. The AMEC2006 was held in Cheju National University in Jeju Island, Korea in October 2006, concurrently with the 2nd PAAMES meeting. JASNAOE in cooperation with JIME and JIN have hosted the 3rd PAAMES/AMEC2008 in Makuhari Messe, Chiba, Japan in October 2008. The participating societies amount to 16. 4 distinguished guests gave keynote speeches under the themes of the 3rd PAAMES of "Harmonization of maritime engineering industry and related infrastructures, such as education and R&D, in Pan Asian region," and "Cooperation among PAAMES member societies". 122 papers from the 14 fields of maritime engineering were presented at AMEC2008. 2-4 papers will be selected from the presented papers for Best Paper Awards. The Society of Naval Architects and Marine Engineers Singapore (SNAMEs) will host the 4th PAAMES/AMEC2010 in 2010, in Singapore.
